

NUTRAFOL[®]

Keep growing.

Improve hair growth,
naturally.

Pure plant power.

Standardized, medical-grade, bio-optimized botanical ingredients.

Meet your hair hero, Synergen Complex®

A breakthrough formula with patented stress adaptogens, DHT inhibitors and super antioxidants.

Saw Palmetto

CO2-extracted and clinically shown to help prevent the conversion of testosterone to DHT, a hormone linked to thinning hair.

Sensoril® Ashwagandha

Clinically shown to help lower elevated levels of cortisol and improve resistance to stress in chronically stressed adults.

BCM-95® Biocurcumin

Extracted from turmeric, curcumin is a potent antioxidant clinically shown to help fight many dysregulating molecules that compromise hair growth through micro-inflammation.

EVNoIMax® Tocotrienols

A potent form of super vitamin E clinically shown to support healthy hair growth through reduction of oxidative damage.

Hydrolyzed Marine Collagen

Sourced from North Atlantic Cod, marine collagen is known to promote healthy hair and diffusion of nutrients.

Gluten, Shellfish, & Soy Free.
No Artificial Additives.

Where new growth begins.

Our three Core formulas are physician-formulated with potent blends of nutraceuticals that are clinically tested. 100% drug-free.

- Multi-targets root causes of poor hair health
- Medical-grade and clinically tested ingredients
- Healthy and effective
- Improves overall wellness
- Supported by 1100+ doctors and dermatologists

Core for Women

- Synergen Complex®
- Includes standardized stress adaptogens

Core for Men

- Synergen Complex®
- Extra DHT support with Saw Palmetto

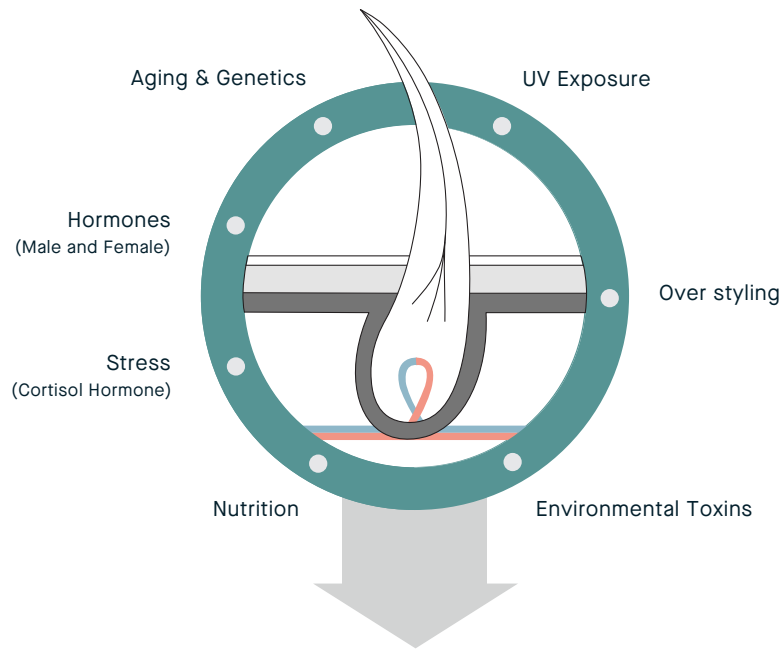

Core for Women Plus

- Synergen Complex Plus®
- Boosted with Maca Root and Astaxanthin
- Formulated for use before, during and after menopause.

New Science. New Hope.

The latest science shows that multiple triggers can compromise hair growth including micro-inflammation, oxidative stress and hormonal imbalance.

Internal and external triggers that affect the follicle.

Triggers cause an excess of free radicals, oxidative stress and micro-inflammation.

Micro-inflammation produces chemical molecules that alter the hair growth cycle leading to hair shedding.

The clinical trial is undeniable.

Nutrafol has a statistically significant effect on women's hair health. The results include increased hair growth as well as improved hair quality and overall wellness.

80%

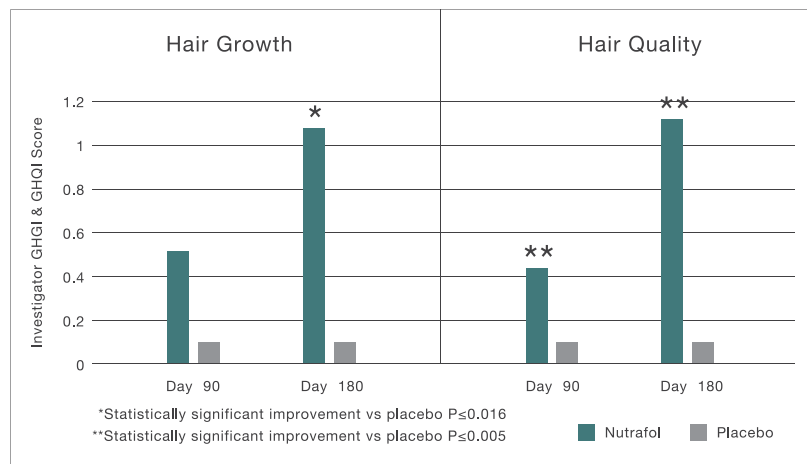

Saw improvement in hair growth.

76%

Saw noticeable growth of new hair.

80%

Saw improvement in hair thickness.

Global improvement in hair growth and quality by blinded investigator grading.^{REF}
